# Awab Ahmed Osman Mohamed

Location: Atbara, Sudan | Open to remote work and relocation | Phone: +249 994 376 150 (Calls & WhatsApp)| Email: awabahmed987@gmail.com | LinkedIn: https://www.linkedin.com/in/awab-ahmed-720b743a7/ | GitHub: Awab-Ahmed-Os (Awab ahmed) | Portfolio: Awab Ahmed - Portfolio

## PROFESSIONAL SUMMARY

Entry-level cybersecurity professional with a BSc (Hons) in Information Technology and the Google Cybersecurity Professional Certificate (2026). Skilled in vulnerability assessment, SIEM-based threat detection, and Python automation. Built a network vulnerability scanner and have 2+ years of IT support experience. Seeking a Junior Security Analyst, SOC Analyst, or IT Support role.

## TECHNICAL SKILLS

- **Cybersecurity:** Vulnerability Assessment, Threat Detection, Incident Response, Risk Management, Security Auditing, SIEM, Intrusion Detection Systems (IDS), Log Analysis, Packet Analysis, CVE/CVSS, OWASP, NIST CSF, NIST RMF, CIA Triad
- **Security Tools:** Nmap, Wireshark, tcpdump, Splunk, Google Chronicle
- **Networking:** TCP/IP, LAN/WAN, VPN, Firewalls, Network Protocols, Network Architecture, Network Troubleshooting, Cisco Packet Tracer
- **Programming:** Python (automation, regular expressions, file handling), C, C++, Java, Dart, JavaScript, PHP, HTML, CSs
- **Databases:** SQL, PostgreSQL, Schema Design, Query Optimization, Backup and Restore
- **Operating Systems:** Linux (File Management, Shell Scripting, Permissions, Process Control), Windows Administration and Troubleshooting
- **Tools & Platforms:** Git/GitHub, Docker, Flask, Flutter, Android Studio, Visual Studio Code, Postman, pgAdmin, DBeaver
- **IT Support:** Remote Desktop Support, Ticketing Workflows, Device Installation, Software Updates, User Guidance
- **Productivity:** Microsoft 365, Google Workspace
- **Soft Skills:** Problem Solving, Attention to Detail, Teamwork and Leadership, Time Management, Written and Verbal Communication, Working Under Pressure

## CERTIFICATIONS

- Google Cybersecurity Professional Certificate (v2) - Google / Coursera, Oct 2026

## PROJECTS

**Network Vulnerability Scanner (NVS) - Graduation Project** | The Future University, Sudan | Nov 2025
**Tech Stack:** Flutter, Python, Flask, PostgreSQL, python-nmap, CVSSLib, SQLAlchemy, Android

- Developed a full-stack network security tool that automates open port detection using python-nmap.
- Integrated real-time CVE lookups and CVSS-based risk scoring to prioritize vulnerabilities by severity.
- Delivered AI-powered remediation guidance to network administrators through an Android app backed by a Flask API and PostgreSQL database.

**GitHub Repository:** Awab-Ahmed-Os/NVS

**Portfolio Website** | Apr 2026
**Tech Stack:** HTML, CSS, JavaScript

- Built a fully responsive single-page portfolio website from scratch using vanilla HTML, CSS, and JavaScript.
- Implemented animated UI elements, mobile-responsive navigation, and a dynamic certification gallery with PDF download support.

## PROFESSIONAL EXPERIENCE

**Media Store Assistant |** Apr 2025 - Feb 2026

- Supported 50+ customers weekly with data transfers and device compatibility issues, maintaining a 95% issue resolution rate.
- Organized digital storage systems, reducing transfer errors by 20%.

**Software Operation Engineer |** Jan 2024 - Mar 2025

- Delivered end-to-end technical support across 100+ device installations and software updates, achieving a 90% first-contact resolution rate.
- Improved customer satisfaction by 30% through efficient troubleshooting and clear user guidance.

## EDUCATION

**Bachelor of Science (Hons) in Information Technology**
The Future University, Sudan | 2020 – 2025

- Classification: Second-Upper Class | CGPA: 3.03 / 4.00

## LANGUAGES

- Arabic – Native
- English – Professional Working Proficiency
